FairCom Corporation (573) 445-6833

**Columbia, MO Nov 23, 1998 —**

FairCom Corporation and TeleBackup Systems, Inc. announced completion of an agreement for distribution of the FairCom<sup>®</sup> Server as part of TeleBackup System's remote backup system known as TSInfoPro.

The FairCom Server provides the client/server database operations required by TSInfoPro's advanced remote network backup and recovery solutions to mobile, desktop, and remote users through a true desktop-to-data center backup solution.

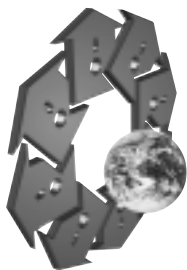

"FairCom's aggressive pricing, evaluation distribution flexibility and ability to meet our business and marketing needs matches the performance and sophistication of the FairCom Server and c-tree Plus", said Andy Honl, TeleBackup Systems. "We are pleased TeleBackup is bringing state-of-the-art database technology to the most comprehensive, cost

effective solution for corporations deploying sizable networks of workstations, mobile workers or office locations outside the network environment, extending the backup infrastructure to virtually any location with standard telephone or the Internet access".

"The FairCom Server and c-tree Plus' features like full-featured transaction processing and dynamic roll back/roll forward are designed to meet the demands of sophisticated applications such as TSInfoPro", said Winston Atkisson, Senior Engineer, FairCom. "FairCom's commitment to providing database technology as well as adjusting to the business and marketing needs of developers like TeleBackup Systems assures that their applications have the latest client/server technology with the flexibility to meet the performance demands of the most sophisticated mission critical applications."

c-tree Plus sells for \$895 with full source and support for 25+ platforms. The FairCom Servers retail from \$445

to \$6,795, depending upon the number of connections, and are licensed on a per server machine basis. OEM distribution and source are available.
